

TEHTRI-Security

Technology-Ethical-Hacker-Trust-Robust-Information-Security

TEHTRI-Security is an innovative French company specialising in Security Consultancy and Expertise for Information and Communication Technology.

Presentation

TEHTRI-Security is a French company founded in 2010, specialising in **state-of-the-art technological expertise**, with consultants who know, understand and master the techniques and methods of attackers (hackers, business intelligence, computer warfare etc.) as well as the resources needed to counter the current threats.

IT Security – Consultancy and Expertise

Advanced consultancy

- ⇒ Assistance for countries, large organisations and small-medium sized companies
- ⇒ Fight against information leaks, Protection and Counter-Intelligence

Technical consultancy

- ⇒ Audits and Intrusion tests (“Pentests”)
- ⇒ Incident Management, Surveillance (Monitoring) and specific actions

Our experience

Our consultants' **recognised expertise** comes from our experience of working within large organisations, companies and national or international bodies **since 1995**.

This has included active involvement with the United Nations Organisation, the Intergovernmental Agency of French-speaking countries, the French Atomic Energy Agency, the US Department of Defense, banks, Internet Service Providers, e-commerce, and many more.

Our commitments

The consultants at TEHTRI-Security have 15 years' experience in **sensitive environments or crisis situations**.

They can therefore ensure efficiency, discretion, trust and above all confidentiality, for all the specific requirements or standards of your protection.
